

## Open and connected learning

### How to improve and expand education through technology

#### Stakeholder Workshop

An event organised by Fondation EurActiv  
With the support of Intel Corporation

17 October 2013 | 12 noon – 2pm  
EurActiv Network Office, 1 Bd. Charlemagne, 1041 Brussels

While the digital revolution has led to an increase in educational resources via the Internet, European education systems are still unable to integrate ICT in their mainstream practices.

A Commission initiative titled 'Opening up Education' aims at enhancing education and skills development through new technologies.

- How can a coherent infrastructure and use of ICT in schools be achieved across Member States?
- What are the main reasons for not fully exploiting new digital resources such as 'Open Educational Resources' or 'Massive Open Online Courses'? How can these initiatives impact European innovation?
- What role does industry play in integrating digital technologies in education and training?
- What are the steps the EU should take to modernize learning, teaching and assessment practices through digital technologies?

Fondation EurActiv is pleased to invite you to a round table debate to explore answers to these questions.

Invited contributors include:

- Ana Carla PEREIRA, Head of Unit - Skills and qualifications strategies; Multilingualism policy, DG EAC
- Doris PACK, MEP
- Marco MARSELLA, Deputy HoU Inclusion, Skills and Youth, DG CNECT
- Danny ARATI, Education Manager Europe, Intel Corporation
- Andrea KÁRPÁTI, UNESCO Chairholder for Multimedia in Education, Eötvös Loránd University, Faculty of Science, Hungary

Moderator:

Frédéric Simon, Editor, EurActiv.com

Chair:

Ross Melzer, Public Affairs Director, EurActiv.com
