

1st European Conference on the Future Internet

Brussels, 2 – 3 April 2014

Join the conference for Future Internet stakeholders

The 1st European Conference on the Future Internet (ECFI) brings together **key stakeholders** to discuss how Europe can achieve **global leadership in ICT** by 2020 through innovative Internet technologies.

The event will present **cutting-edge research results** on the European Internet infrastructures and services of the future, which have been developed in the **Future Internet Public-Private Partnership (FI-PPP)**.

Key benefits

- The opportunity to **discuss with peers** from industry and the political domain how Europe can achieve global leadership in ICT by 2020
- A **clear understanding** of how FI-PPP initiatives, projects and actions in FP7 and Horizon 2020 will achieve the goals of the Innovation Union
- **Insights** on the latest developments in Future Internet technologies
- **Direct access to key players** in European Future Internet initiatives who are the drivers of the Internet infrastructures and services of tomorrow
