

**SUSTAINABLE  
ENERGY WEEK  
13-17 June 2016**

**Tuesday 21<sup>st</sup> of June**

# A SUCCESSFUL ENERGY **EFFICIENCY** APPROACH IN EUROPE

**As one of the 5 pillars of the Energy Union Strategy, energy efficiency is a key enabler of an ambitious and cost-efficient low carbon transition.**

The Energy Efficiency Directive (EED) adopted in 2012 established a comprehensive EU framework, driving the reduction of energy demand in all EU Member States. However, the current framework remains too complex, fragmented, and needs to be readjusted in order to deliver its full benefits, at the least cost.

**As the European Commission currently addresses the review of the energy efficiency directive, this event aims at identifying and debating the most promising opportunities for a successful approach, at European level.**

At the frontline of energy efficiency investments, experts from residential and tertiary buildings, ESCO and financing platforms, will gather on the same podium to discuss the way forward, and pave the way for the uptake of a strong, dynamic and competitive European industry for energy efficiency services.

Join us on the 21<sup>st</sup> of June for a comprehensive high level debate, and step in the reflection!

**16h00 Registration & Coffee**

**16h30 Opening speech**

**Target and prioritize: presentation of UFE study on energy efficiency**  
Christine GOUBET-MILHAUD, *President of the French Union of Electricity*

**16h45 Q&A**

**17h00 Panel debate**

moderated by Hughes BELIN, *independent energy journalist*

**A more ambitious approach on residential buildings**

Riccardo VIAGGI, *General Secretary, European Builders Confederation EBC*

**Unlock the potential of tertiary buildings**

Laurent KRAIF, *Chief Executive Officer, PERFESCO*

**Innovative financing of energy efficiency**

Luca BERTALOT, *General Secretary, European Mortgage Federation EMF-ECBC*

**Optimizing industrial utilities and energy efficiency in heating and cooling networks**

Yann MENAGER, *Senior Analyst European Affairs, DALKIA*

**Digital revolution and energy efficiency**

Indran RATNATHICAM, *Vice President Marketing & Strategy, FIRST FUEL*

**18h00 Q&A**

**18h15 Closing remarks**

**Smart financing and innovation: the way forward**

Paul HODSON, *Head of C.3 "Energy Efficiency" Unit, Directorate-General for Energy to the European Commission*

**18h45 Networking cocktail**

**Tuesday 21<sup>st</sup> of June 16h00 - 19h30**  
**Stanhope Hotel, Rue du Commerce 9 - 1000 Brussels**

With the kind support of
